

EXPLICACION DEL MODELO

Un paisaje sonoro esculpido por insectos.

Tras un paseo por el museo de ciencias naturales, Mut se inspira en las salas de entomología y sus espeluznantes expositorios de insectos, para crear los bichos más bellos e inofensivos jamás vistos.

El nuevo proyecto del consolidado estudio valenciano para Sancal parte de la necesidad de resolver el incómodo problema del ruido ambiente y hacerlo sin que lo parezca; superando el difícil equilibrio entre funcionalidad y decoración.

Los paneles fonoabsorbentes Beetle son esculturas textiles que sobredimensionan el arquetipo de un escarabajo.

Con un total de 6 paneles obtenemos 12 composiciones o escarabajos diferentes. En cuanto a los acabados, es posible realizar tantas combinaciones de color como te permitan las siguientes referencias textiles: Stitch*, Facet, Uniform Melange, Galaxy, Atlantic (112), Razzle Dazzle, Sprinkles y Drop. El soporte es de madera de roble y se puede tinter en cualquiera de los colores de nuestra carta.

*Tejido apto exclusivamente para el panel nº 4.

IMPORTANTE

Por favor, para los paneles 1, 2, 3, 5 y 6, seleccione el tejido de la funda de los muestrarios Atlantic (112), Facet, Uniform Melange, Galaxy, Razzle Dazzle, Sprinkles y Drop. El panel 4 solo está disponible en el tejido Stitch de Febrik.

DESCRIPTION

Soundscapes sculpted by insects.

After meandering through the Natural Science Museum, Mut Studio became inspired by the exhibition rooms dedicated to entomology and their terrifying showcases of insects. Their own bug, however, would be beautiful and harmless.

Their new project for Sancal starts with the need to resolve the uncomfortable problem of background noise, overcoming the difficult balance between sound dissipation and decoration.

The sound-absorbing panels are textile sculptures that oversize the perfect specimen of a beetle.

By carefully combining the product's 6 panels, Sancal has created 12 different Beetle variants. As for the finishes, a variety of textile combinations are available using references from swatch cards: Stitch*, Facet, Uniform Melange, Galaxy, Atlantic (112), Razzle Dazzle, Sprinkles and Drop. The support is made of oak wood and can be tinted in any of the colours in our chart.

*Fabric suitable exclusively for panel number 4.

IMPORTANT

Panels 1, 2, 3, 5 and 6, are only available in fabrics from Sancal swatch book Atlantic (112), Facet, Uniform Melange, Galaxy, Razzle Dazzle, Sprinkles and Drop. Panel 4 is only available in Stitch from Febrik.

CARACTERISTIQUES

Un paysage sonore sculpté par des insectes.

Après un passage par le musée de sciences naturelles, Mut s'inspire dans les salles d'entomologie et ses terrifiantes vitrines d'insectes, pour créer les spécimens les plus jolis et inoffensifs jamais vu.

Le nouveau projet de la maintenant très réputée étude valencienne pour Sancal part de la nécessité de résoudre le problème incommode du bruit ambiant, et de le faire sans y paraître ; en surmontant le difficile équilibre entre fonctionnalité et décoration.

Les panneaux phono-absorbants Beetle sont des sculptures textiles qui surdimensionnent l'archétype même du scarabée.

Avec un total de 6 panneaux nous obtenons 12 compositions ou 12 scarabées différents. Pour les finitions, il est possible de réaliser autant des combinaisons de couleurs que nous permettent les différentes références de tissus suivantes : Stitch*, Facet, Uniform Melange, Galaxy, Atlantic (112), Razzle Dazzle, Sprinkles et Drop. Le support est en chêne et peut être teinté dans toutes les finitions de notre carte de couleurs.

*Tissu apte exclusivement pour le panneau n° 4.
