Eco Senses

ECO SENSES explores the difficult balance between the day-to-day beauty, the authentic sensations through noble materials and its coexistence with reality plus technology. Search for soulful, warm and honest solutions in times in which the purely human needs must find a meaning in new spaces of collaboration and work. FAMO proposes a reinterpretation of the handcraft furniture and equipment vision, using the most advanced technologies looking for its essence and quality.

ECO SENSES explore l'équilibre difficile entre la beauté du quotidien, les sensations authentiques à travers de matériaux nobles et sa coexistence avec la réalité plus technologie. Des recherches de solutions ayant une âme, chaleur et honnêteté, en des temps où les besoins purement humains doivent trouver un sens dans les nouveaux espaces de collaboration et travail. FAMO propose une réinterprétation de la vision artisanale du meuble et de l'équipement, dès les techniques les plus avancées à la recherche de son essence et qualité.

ECO SENSES erforscht die schwierige Balance zwischen alltäglicher Schönheit, authentischen Empfindungen durch edle Materialien und seiner Koexistenz mit Realität und Technologie. Mit Seele, Herzlichkeit und Ehrlichkeit nach Lösungen suchen, in Zeiten, in denen rein menschliche Bedürfnisse in neuen Räumen der Zusammenarbeit und Arbeit Sinn finden müssen. FAMO schlägt eine Neuinterpretation der handwerklichen Vision von Möbeln und Ausrüstung vor, ausgehend von den fortschrittlichsten Techniken auf der Suche nach ihrem Wesen und ihrer Qualität.

ECO SENSES explora o difícil equilibro entre a beleza do cotidiano, as sensações autênticas, através de materiais nobres e sua convivência com a realidade e tecnologia. Procura de soluções com alma, conforto e honestidade, em tempos em que necessidades puramente humanas devem encontrar sentido nos novos espaços de colaboração e trabalho. FAMO propõe uma reinterpretação da visão artesanal do móvel e equipamento, utilizando as técnicas mais avançadas, em busca da sua essência e qualidade.
